HISTORY

The Georgia Daffodil Society was organized on November 23, 1954 just shortly after the founding of the American Daffodil Society in Washington, DC on April 9, 1954. Judge Carey E. Quinn of Washington, DC inspired the birth of both organizations. He encouraged those present at the organization of the American Daffodil Society to go back to their home states and start similar organizations. There were 16 charter members from Georgia at this first meeting.

We gratefully acknowledge past growers such as Berma Abercrombie, Barnie Kennedy, Mildred Simms, Margaret Tolleson, Sylvia Sandler, Jack & Iris Yarbrough, David Cook and others who encouraged many of us to become involved in growing daffodils.

The Georgia Daffodil Society has continued to move forward in its attempt to educate the public of the past history of daffodils in Georgia through the discovery of plantings around the state by earlier settlers. Many homes and cemeteries have been found to have these historic daffodils in their areas. When circumstances permit, the GDS has helped to save some of these historic daffodils as well as contribute to new plantings in public gardens.

The Georgia Daffodil Society is known as a dedicated group which welcomes all those who love the daffodil to join our group. Whether you grow one variety or 500, the GDS strives to create public awareness about that cheerful harbinger of Spring in Georgia - THE DAFFODIL.

REGULAR SHOW AWARDS

Only one first, one second and one third place ribbon may be given in each class. Honorable Mention ribbon may also be given if merited, but only if first, second and third have been awarded. However, if there are three or more entries of a single cultivar or color code in one class, the judges may subdivide that class and create a separate class for that specific cultivar provided the classes contain a sufficient number of worthy entries. Species may be subdivided by their botanical section.

HORTICULTURE RULES

1. Entry tags for horticulture may be secured from the show chairperson (or mailed upon request) prior to the show date. Any information on an entry tag, including the exhibitor's number, which could compromise the anonymity of the exhibitor, must be concealed during judging.
2. All amateur daffodil growers are eligible to make entries in horticulture, except where specified otherwise.
3. **Horticulture entries/set up Friday, March 11, 2016 1:30-4:00 P.M. and Saturday, March 12, 2016 from 7:30-9:30 A.M. All entries must be in place by 9:30 A.M. Entries may not be removed before 5:00 P.M. on March 12, 2016.**

HORTICULTURE RULES - continued

4. All blooms in horticulture must have been grown in the open by the exhibitor. Miniatures may have been grown in protected areas.
5. An exhibitor may make as many entries as desired in any class, provided each entry is a different cultivar or species or an entirely different collection of cultivars and/or species.
6. Unnamed Exhibits or ones incorrectly named will not be judged. EXCEPTION: Section P, Class 215 for UNIDENTIFIED daffodils. NOT eligible for any top awards. (ADS Awards, NGC Award or GDS Awards).
7. Blooms of seedlings may be exhibited in all classes for named cultivars by the originator or other persons. Each seedling must be identified by a number designation assigned by the originator. If the exhibitor is not the originator, the name of the originator must be included as part of the identification. Seedlings shown by the originator in regular classes are eligible for the ROSE RIBBON. Winners will be selected in the same manner as the GOLD RIBBON winners.
8. Each stem in an exhibit receiving an ADS Award must score 90% or more by the ADS Scale of Points.
9. All collections of five or more stems must be exhibited with each cultivar or species in a separate container. Each cultivar or species must be correctly labeled with the name and division number and the originator's name must appear on the label of American bred classes except seedlings shown by the originator.
10. Miniature daffodils named in the most recent ADS Approved List of Miniatures, with any official additions thereto, may be shown only in classes for miniatures. An exhibitor may enter any named or numbered, graceful, diminutive daffodil flower in classes for miniature daffodils; however, judges may decline to judge any unapproved miniatures that they think are too large to be considered a miniature. Such miniatures are eligible for ADS Awards in the Miniature Section except that the MINIATURE ROSE RIBBON may only be given to a seedling shown by the originator.
11. Any and all awards may be withheld by the judges if in their opinion the exhibit is not worthy. However, if a blue ribbon is awarded in a class eligible for an ADS ribbon, the ADS ribbon may not be withheld. The decision of the judges shall be final except as stated in Rule 12.
12. Correct classification and labeling shall be the responsibility of the exhibitor. No label may be changed, specimens added, altered, removed or substituted after judging has begun or after awards have been placed. If an error is discovered in an exhibit after completion of judging, any award placed thereon (ADS, Special, or Ribbon) shall be forfeited by the exhibitor. If an error is discovered before the judging is completed, the class must be re-judged.
13. An intermediate is a standard daffodil in Divisions 1, 2, 3, 4 or 11 having a single floret whose diameter is typically greater than 50 mm (not including 50) through 80 mm. They may be entered in classes for standard daffodils as well as intermediate classes.

HORTICULTURE RULES - continued

14. **Historic** daffodils are defined as pre-1940 registrations. All cultivars shall be labeled with name, division, and year of registration as listed in the ADS Data Bank.
15. **Classic** daffodils are defined as 1940 - 1969 registrations or introductions. All cultivars shall be labeled with name, division, and year of registration as listed in the ADS Data Bank. Prior to judging, classes may be subdivided by decade and/or division. Daffodils in this section will be judged using the standard scale of points.
16. **Intermediate** daffodils are defined as a single-floreted cultivar, typically greater than 50mm and thru 80mm in diameter (1.9685" and thru 3.1496"), from RHS Divisions 1,2,3,4 and 11.
17. Containers will be provided at the show for all entries. Boxwood sprigs will also be provided to be used to secure all stems. No daffodil foliage is permitted.
18. Cultivars from gardens of horticulture judges for this show are eligible for competition, except such judges may not judge in classes wherein they exhibit.
19. Only authorized show committee members may remain on the show floor during judging.
20. **Entry tags and ribbons must NOT be removed from show before 5:00 P.M., March 12, 2016.**
21. All classes are for standard daffodils unless otherwise designated.
22. **For this schedule, pot-grown cultivars are not eligible for regular class and special awards**
23. **Judging will begin at 10:00 A.M.**
